

## EOTC - Wheels Day

On Friday one of our activities for Education Outside of the Classroom is Wheels Day. The students may bring bikes, scooters or roller blades to school to ride during their session. Your child's safety is important to us, so students must wear helmets and protective gear in order to ride. Bikes must go into bike stands and scooters and such can go to classrooms.

Toys with wheels (eg - toy trucks and cars) may be brought to school by the students who do not wish to ride a bike or scooter.

Thank you for your support.
